

How to join the *Unisense - Public* group in Mendeley

Note: If you don't already have a Mendeley account, go to Mendeley.com and create an account. This is simple and free. From the Mendeley.com you can also download and install the Mendeley desktop application which is more user friendly than the web interface offered at Mendeley.com.

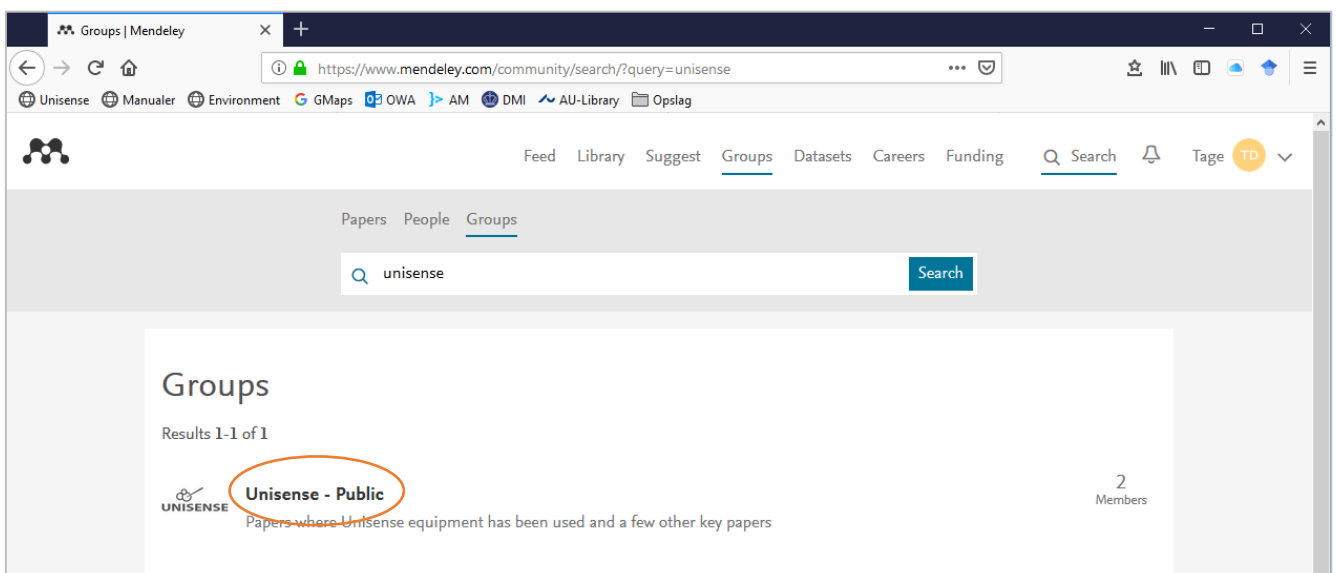

1. Log into your Mendeley account
2. Click the *Search* icon

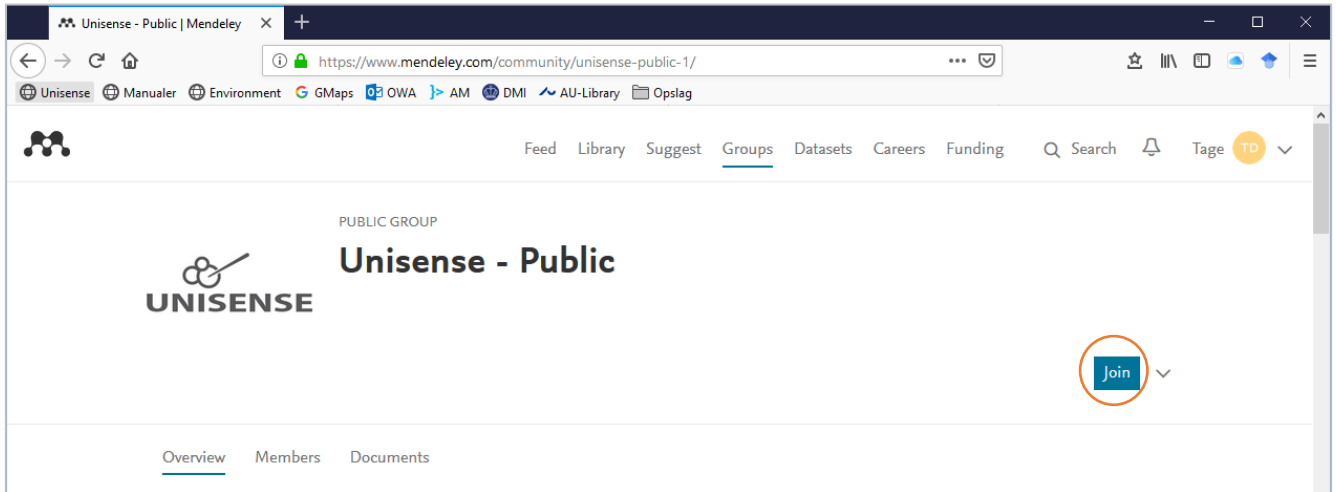

3. Click *Groups* and enter "unisense" in the search field and click the *Search* button

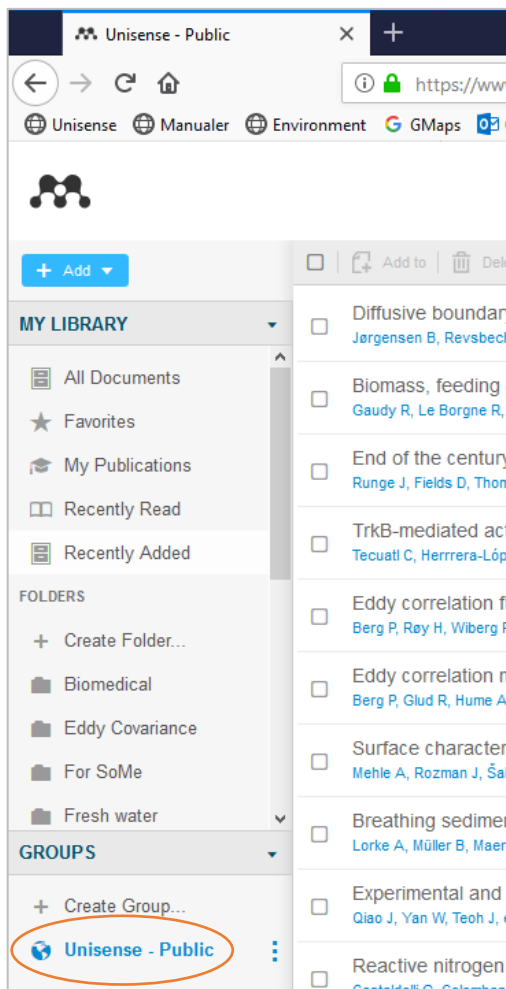

4. Click *Unisense - Public* in the search results

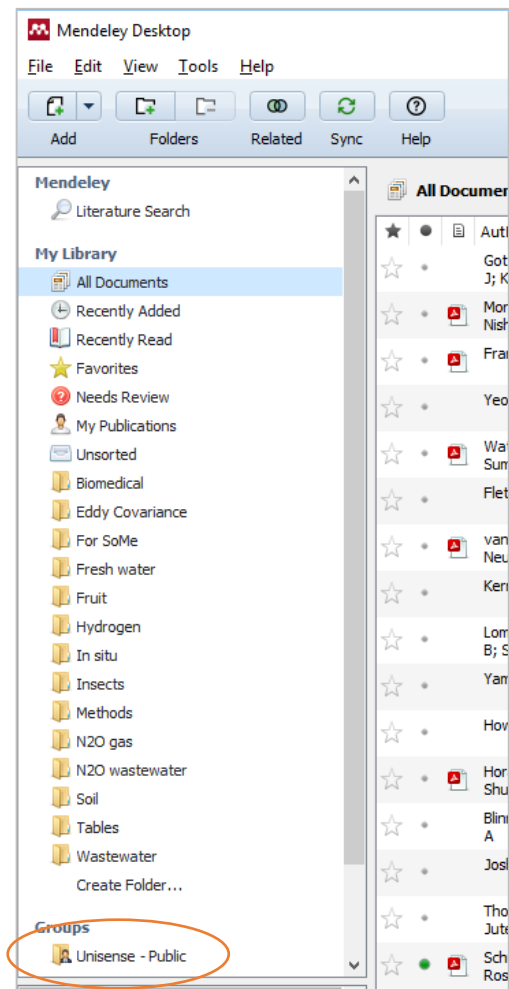

5. Click the *Join* button In the *Unisense - Public* window

You are now a member of the *Unisense - Public* group. This group will now be displayed in the *Groups* section in the left hand column the Mendeley Library window in both *Mendeley.com* and, if you have that installed, in *Mendeley Desktop* after sync. See below.
